SUMMARY

Seeking Full Stack Web Development position that will utilize my effective problem solving and analytical skills to create effective and user-friendly applications. Enjoy contributing to and being a positive member of diverse development teams.

TECHNICAL TOOLS

HTML5, CSS3, JavaScript, JQuery, Bootstrap, Node Js, MySQL, MongoDB, Express, Handlebars.js & ReactJS, Sequelize, Mongoose

PROJECTS

Dono Application | | Backend and Frontend

<https://github.com/abdulhakeemdahir/dono-application> | <https://dono-application.herokuapp.com>

This application is a social media charity platform for Non-Profit Organizations and potential donors. We intend to create a Twitter-esque experience that will make it easier for more people to take part in funding charitable causes

Tools: Js, Css, MaterialUi, MongoDB, Node.js, express, React.js, Nodemailer, Mailgun, Passport, JWT, Axios

Role: Focus on the back end, created controllers and routes, Passport JWT authentication, work with global states to grab all the data from database to render to react.

Workout Buddies | | Team Lead

<https://github.com/Tuzosdaniel12/Workout-Buddies> | <https://workout-buddies.herokuapp.com/>

A simple application that allows the user to create workouts of their own that can be shared freely amongst fellow users of the application.

Tools: Js, Css, Bootstrap, Sequelize, Node.js, express, handlebars, Nodemailer, Mailgun, Passport, JWT, Axios

Role: Team lead, used effective communication skill to monitored teams progress and helped when needed. Created the database, account activation, authentication routes, rendering data with the handlebars templates created by the front-end team.

Movie Trailer Match-Up | | Team Lead

<https://mfrisch87.github.io/MovieTrailerMatchUp/> | <https://github.com/mfrisch87/MovieTrailerMatchUp>

This application creates a hub of sorts where the user can access a variety of movies associated with their search query and have instant access to the most relevant movie trailer associated with each.

Tools: Js, Css, Bulma, Youtube Api, OMDb Api

Role: Team lead, I helped the front-end team implement a pleasant design. Helped the back-end team, dynamically display API response. Focused the remainder of my energy upon streamlining the application and tracking down edge cases.

WORK EXPERIENCE

Bartender

Cactus| Tavern Hall

July 2015 to Present

Used effective communication skills, time management and personality to achieve to customers satisfaction. While communicating with 150 or more customers per week, maintained a 90% customer satisfaction rating by providing quality customer service in a high pace environment, and enabling happiness by company standards.

EDUCATION

University of Washington, Seattle, WA, 2020-2021
