Tutor, Self-starter, motivated learner ready to use my effective problem-solving and analytical skills to create user-friendly applications. Accustomed to high-stress work environments and guiding diverse groups in leadership roles that require accurate communication and strict time management.

TECHNICAL SKILLS

Languages: Spanish, HTML5, CSS3, JavaScript, Python, Node.js, SASS, NoSQL (MongoDB), SQL (MySQL)
Libraries: JQuery, Bootstrap, Bulma, Node, Express, Handlebars.js, ReactJS, React Native, NextJS, Sequelize, Mongoose, Tailwind
Applications: GitHub, Atlas, Heroku, Firebase
Soft Skills: leadership, communication, honest, humble, hardworking, critical Thinker, problem solver, fast learner, friendly, ability to read and understand documentation

PROJECTS

Dono Application

<https://github.com/abduhakeemdahir/dono-application> | <https://dono-application.herokuapp.com>

This application allows user to donate directly to any non-profit.

Role: Created controllers and routes, on controllers manage MongoDB (Mongoose) collections using CRUD and filter response based on request. Used React.js global context to store server response to later render data to components. Also created Passport JWT authentication, refactor components, created custom hooks,

Workout Buddies

<https://github.com/Tuzosdaniel12/Workout-Buddies> | <https://workout-buddies.herokuapp.com>

A simple application that allows the user to create workouts of their own that can be shared freely amongst fellow users of the application.

Role: Team lead, used click up to set up task for team mates to meet project deadline. Created and manage MySQL (Sequelize), used routes to manage database and filter data based on client request, get routes used server side rendering with handlebars.js, on client side used bootstrap, JQuery, client-side API calls to server with AJAX, and server-side RESTful API request with axios. Also created Passport Sessions authentication.

Facebook Clone

<https://github.com/Tuzosdaniel12/facebook-clone> | <https://feisbuc-clone.herokuapp.com/>

Facebook clone to showcase the ability of the developer to match the styling of Facebook page and learning new technologies by using Next.js, Tailwind CSS, and NEXT AUTH, Firebase

WhatsApp Clone

<https://github.com/Tuzosdaniel12/whats-app-clone> | <https://whatsapp-simple-clone.herokuapp.com/>

WhatsApp clone, project is built on server-side rendering with Next.js, Styled Components, and Firebase

Uber Clone

<https://github.com/Tuzosdaniel12/UberClone>

React-Native app built with Navigation, Redux, Tailwind & Google Autocomplete, Expo and Android emulator.

EXPERIENCE

Teacher Assistant Trilogy Education May 2021 to Present New York, NY

Assist instructor by ensuring students understood programming concepts effectively. Able to work with multiple people or one on one with a positive attitude. Helped instructor keep the class on track by maintaining a tight schedule, manage course material on GitLab, helped planning and preparation for daily activities via zoom.

Bartender Cactus| Tavern Hall July 2015 to Present Bellevue, WA

Used effective communication skills, time management and personality to achieve to customers satisfaction. While communicating with 150 or more customers per week, maintained a 90% customer satisfaction rating by providing quality customer service in a high pace environment, and enabling happiness by company standards.

EDUCATION

University of Washington | Bootcamp Certificate | 2020-2021 | Seattle, WA

Sanford-Brown College | Software Engineering (earn 76 credits) | 2013-2015 | Tukwila, WA
